Subject: Chemours Gen X Data Released Today to the Public

FYI only.

As you know, EPA requested the Chemours Company to sample for Gen X near the Washington Works, WV facility. Today, EPA is posting the sample results collected at 10 private wells (5 in OH) and 4 PWSs (for OH-Belpre Public Works and Little Hocking Water Assoc.). The results have been posted at:

<https://www.epa.gov/pfas/chemours-company-well-sampling-results>

The Agency's request letter and Chemours' response can be found here: <https://www.epa.gov/pfas/request-sampling-genx-water-supplies>

Our EPA-HQ office has reached out to the OH and WV Secretaries offices, congressional offices and local official contacts to ensure that they are aware of today's data release to the public.

Feel free to contact me if you have any questions.

Thanks,
Kim
